Cork and Synthetic Rubber

Cork and Synthetic Rubber is a soft grade, fine grain cork and rubber gasket material used in various sealing applications at lower bolting pressures.

Cork and Synthetic Rubber	Physical Properties
Binder	Co-Polymer
Compressibility @400 psi	25 to 45 %
Minimum Recovery	70 %
Hardness Shore A	55 to 75
Service Temperature Range	-40 to 250 ° F
Volume Change ASTM Oil 1 (70 hrs @ 212 F)	-10 to 20 %
Volume Change ASTM Oil 3 (70 hrs @ 212 F)	0 to 80 %
Volume Change ASTM Fuel A (22 hrs @ 70 -85 F)	0 to 30 %
