## Chute Lining Skirtboard

High-quality, abrasion-resistant sheet for applications requiring tough, cut-resistant stock and/or vibration absorption. Used as conveyor skirting, chute liner, blast curtains, mounting pads, chassis padding, and other similar applications.

Chute Lining Skirtboard		Physical Properties
Color		Black
Durometer Shore A		60
Tensile Strength		1000 psi
Temperature Range		-25 to 175 ° F
Elongation		300 %
Composition		SBR/Gum Rubber
Abrasion Resistant		Yes
