Chute Lining Skirtboard

High-quality, abrasion-resistant sheet for applications requiring tough, cut-resistant stock and/or vibration absorption. Used as conveyor skirting, chute liner, blast curtains, mounting pads, chassis padding, and other similar applications.

Chute Lining Skirtboard	Physical Properties
Color	Black
Durometer Shore A	60
Tensile Strength	1000 psi
Temperature Range	-25 to 175 ° F
Elongation	300 %
Composition	SBR/Gum Rubber
Abrasion Resistant	Yes
