Polyethylene Foam - Closed Cell

Equalseal.com cross-linked closed cell polyethylene foam tape is single-coated with rubber-based pressure sensitive adhesive with high tack and high shear. With a density of 2 lbs/ft³, this flexible tape is conformable to most smooth or irregular surfaces, and provides good sealing characteristics. It can be used in a variety of applications including glazing tape for window, door and mirror fabricators; industrial gasketing, glass separators, furniture and appliance bumpers, cushioning shipping pads; shock and noise absorption; and construction. It is resistant to water, UV, temperature extremes and aging and is FDA approved for food contact.

Polyethylene Foam - Closed Cell	Physical Properties
Color	White
Density	2 lb/ft ³
Compression Set % of Original Thickness	22 %
Tensile Strength ASTM D412	44 psi
Ultimate Elongation ASTM D412	150 %
Service Temperature	50 to 175 ° F
Force to Compress to 25% ASTM D1667	7 psi
Flammability MVSS-302	Pass
Thermal Conductivity	.7 BTU in/ hr ft ² F
FDA Approved	Incidental Food Contact
