Equalseal PTFE Valve Stem Packing

PTFE Valve Stem Packing is a round cross-section high performance packing material made of 100% PTFE. It is an extruded, then expanded form-in-place material that upon compression conforms to stuffing box surface irregularities. It is capable of withstanding a wide range of pressure, temperature and chemical environments.

Equalseal PTFE Valve Stem Packing	Physical Properties
Composition	100% PTFE
Service Pressure Range	0 to 500 psi
Service Temperature	-450 to 500 ° F
Maximum P x T (psi x deg F)	75000
pH Range	0 to 14
FDA Compliance	FDA 21 CFR 177.1550
Shelf Life	Unlimited
