## SBR - Red

SBR Red Rubber sheets is recommended for service in cold and hot water, air, steam and some weak acids. It should not be used with strong acids, oils, grease and chlorates. It offers little resistance to ozone and to the majority of hydrocarbons.

SBR - Red		Physical Properties
Color		Red-Orange
Durometer Shore A		70
Service Temperature		-20 to 180 ° F
Tensile Strength		700 psi
Ultimate Elongation		250 %
