SBR - Red

SBR Red Rubber sheets is recommended for service in cold and hot water, air, steam and some weak acids. It should not be used with strong acids, oils, grease and chlorates. It offers little resistance to ozone and to the majority of hydrocarbons.

SBR - Red

Physical Properties

Color

Red-Orange

Durometer Shore A

70

Service Temperature

-20 to 180 ° F

Tensile Strength

700 psi

Ultimate Elongation

250 %
