Silicone - White FDA

FDA Grade silicone sheeting is common in applications where food is present. This material is low in volatiles, peroxide free and does not discolor over time. The ingredients used to make this product are listed in CFR 177.2600 which applies to rubber articles intended for repeated use in contact with food. This material is ozone and UV resistant, and is an excellent gasket material.

Silicone - White FDA

Physical Properties

Color	White
Durometer Shore A	60
Service Temperature	-80 to 500 ° F
Tensile Strength	700 psi
Ultimate Elongation	300 %
Specific Gravity	1.45 g/cc
